Write one essay from each section in 1000-1200 words. Contents of answer are more important than their length. All questions carry equal 125 marks.

Section A

1. Industrial decentralisation has been brought about in India as much by Government policy as by market forces and now localised entrepreneurship.
2. Films, like literature, have been truly reflective of INDIAN society through ages.

Section B

1. The use of space technology and its offshoots can solve every problem that India braces up for in the future.
2. "You cannot find a new World unless you lose sight of the shore". This is true for most of the successful and important personalities in many spheres of life.
